SCIENTIA HORTICULTURÆ

Contents of *Scientia Horticulturae*, Volume 67

VOL. 67 NOS. 1–2 NOVEMBER 1996

Composition and quality of 'Braeburn' apples under reduced irrigation
A.W. Kilili, M.H. Behboudian and T.M. Mills (Palmerston North, New Zealand) 1
Tree, fruit size and yield of 'Bing' sweet cherry as influenced by rootstock, replant area, and training system
T.J. Facteau, N.E. Chestnut (Hood River, OR, USA) and K.E. Rowe (Corvallis, OR, USA) 13
Leaf chlorosis and carbon metabolism of eggplant in response to continuous light and carbon dioxide
E.N. Murage, N. Watashiro and M. Masuda (Okayama, Japan) 27
Heat tolerance in leaves of tropical fruit crops as measured by chlorophyll fluorescence
M. Yamada, T. Hidaka and H. Fukamachi (Okinawa, Japan) 39
Identification of rose cultivars and clonal plants by random amplified polymorphic DNA
S. Matsumoto and H. Fukui (Gifu, Japan) 49
Effects of storage temperature and duration on flower bud development, emergence and flowering of *Zephyra elegans* D. Don
H.H. Kim, K. Ohkawa and K. Sakaguchi (Shizuoka, Japan) 55
Model analysis of leaf unfolding rate in *Malus domestica* Borkh.
M. Lindhagen (Alnarp, Sweden) 65
Selective limb pruning, tree removal, and paclobutrazol growth retardant for crowding pecan trees
R.E. Worley, B.G. Mullinix (Tifton, GA, USA) and J.W. Daniel (Griffin, GA, USA) 79
Evaluation of fly ash as a component of potting substrates
N.W. Menzies (St Lucia, Australia) and R.L. Aitken (Indooroopilly, Australia) 87

Short Communications

The viability of asparagus pollen after storage at low temperatures
O.N. Marcellán and E.L. Camadro (Buenos Aires, Buenos Aires, Argentina) 101
Position of cut, bud retention and auxins influence rooting of *Pistacia chinensis*
D.E. Dunn, J.C. Cole and M.W. Smith (Stillwater, OK, USA) 105

Book Reviews

Current issues in plant molecular and cellular biology 111
Modelling potential crop growth processes 113

VOL. 67 NOS. 3–4 DECEMBER 1996

Reviews

Viral diseases causing the greatest economic losses to the tomato crop. I. The Tomato spotted wilt virus – a review
S. Roselló, M.J. Díez and F. Nuez (Valencia, Spain) 117

Viral diseases causing the greatest economic losses to the tomato crop. II. The Tomato yellow leaf curl virus – a review
B. Picó, M.J. Díez and F. Nuez (Valencia, Spain) 151

Selection of stable banana clones which do not produce dwarf somaclonal variants during in vitro culture
Y. Israeli, D. Ben-Bassat (Zemach, Israel) and O. Reuveni (Bet Dagan, Israel) 197
Effects of varying sulphate concentrations on growth, physiology and yield of the greenhouse tomato
J. Lopez (Sainte-Foy, Que., Canada), N. Tremblay (Saint Jean-sur-Richelieu, Que., Canada), W. Voogt (Naaldwijk, The Netherlands), S. Dubé and A. Gosselin (Sainte-Foy, Que., Canada) 207
The effects of copper and calcium foliar sprays on cherry and apple fruit quality
G.S. Brown, A.E. Kitchener (Hobart, Tas., Australia), W.B. McGlasson (Richmond, N.S.W., Australia) and S. Barnes (Hobart, Tas., Australia) 219
Field performance of two types of test tube plants of Chinese gooseberry (*Actinidia deliciosa*) till the onset of fruiting
X.-S. Shen, J.-Z. Wan and K. Chen (Guizhou Province, The People's Republic of China) 229
Chemical and environmental manipulation of ornamental *Acacia* Mill. species for pot plant production
M.A. Parletta and M. Sedgley (Glen Osmond, SA, Australia) 235

New Books 247

Book reviews
In vitro embryogenese in plants 249
Integrated pest management 250
Avocado descriptors 252

Announcement 255

Contents of *Scientia Horticulturae*, Volume 67 257
